

# Computing

## **Knowledge and Understanding**

I know the difference between email and communication systems such as blogs and wikis.

I have begun to evaluate websites and know that everything on the internet is not true.

I know that it is not always possible to copy some text and pictures from the internet.

I can use the search engines agreed by the school.

I can use the internet for learning and communicating with others, making choices when navigating through sites.

I can send and receive email as a class.

I can recognise advertising on websites and learn to ignore it.

## **Algorithms and programming**

I can use a range of instructions (e.g. direction, angles, turns).

I can test and amend a set of instructions.

I can find errors and amend. (debug)

I can write a simple program and test it.

I can predict what the outcome of a simple program will be (logical reasoning).

I understand that algorithms are used on digital devices.

I understand that programs require precise instructions.

## **Information Technology**

I can organise digital content.

I can retrieve and manipulate digital content.

I can navigate the web to complete simple searches.

## **Digital Literacy**

I use technology respectfully.

I know where to go for help if I am concerned.

I know how technology is used in school and outside of school.
